

INTEGRATED QUALITY AND ENVIRONMENT POLICY

The evolution of the market, which is increasingly selective and demanding, and the satisfaction of our customers were the main reasons for ARAMAGUE to commit to a policy of continuous improvement.

As a manufacturer of static condensers, wire baskets, grids and cable trays, we are committed to remaining at the forefront of this market by providing services and manufacturing products with more and more quality and at competitive prices.

The Quality and Environment policy focuses on compliance with regulations, and management policies.

For this purpose, ARAMAGUE's guidelines are as follows:

Continuous Improvement:

Maintain an integrated management system based on the requirements in ISO 9001 and ISO 14001, continuously improving management and performance in all functional areas of the company.

Customer Satisfaction:

Maintain / obtain the trust and satisfaction of our customers through professionalism and strict compliance with legal requirements.

Employee / Employer satisfaction:

Provide employers with greater satisfaction through increased profitability;

Provide greater satisfaction to employees by continuously improving health and safety conditions at work, and providing continued training.

Quality Commitment:

Efficiently use resources in all areas, in order to satisfy quality requirements;

Provide an active involvement of suppliers through open and constructive relations.

Environmental Commitment:

Protect the environment, including the prevention of pollution in activities and services through proper management of

waste and atmospheric emissions, favoring the efficient use of energy and natural resources.

Compliance with Legislation:

Comply with applicable legislation, as well as other commitments related to the environment and services provided to customers. The integrated quality and environment management program is led by the

CFO of ARAMAGUE, who plays a coordinating role, in order to ensure that everyone contributes to the objectives which were established.
